## TESTIMONIAL:

Bob,

I would like to thank you on behalf of the Northside Dolphins for your help in our fundraiser. The putt putt course was a refreshing change to our previous fundraising efforts. I believe we accomplished our goal. To have a family oriented evening of entertainment, and to make some money along the way.

I have had only positive feedback from our members. Your attention to our needs was greatly appreciated. I never expected to have so much participation from your staff. Everyone was very helpful and kind throughout the evening.

Thanks again, and I am sure we will work together in the future.

Thre fund raiser was a success and we effectively molded a group of football players, coaches, and parents into an efficient mini golf course building & tear down operation!

# Let us show your groups how to keep 80% or more profit with our NEW BUSINESS PARTNERSHIP program!

With budget cutbacks and a weakening economy we know too well how tough it is to provide quality education and athletics for our school children. We know because we are parents and former educators, fund raisers, music professionals, and athletic coaches who have decided to do something about past and current failed practices. It is because of this reason we would like to ask you for an opportunity to meet and discuss the creation of a New Partnership aimed at a "NEW ADVANTAGE" in finding available money to meet the needs of your school education, club, band or athletic program!

Our company has researched and studied the current availability of quality programs allowing your students to learn about successful business practices while attaining needed funds for their programs at the same time. Past and current practices of candy, magazine, percentage kickbacks at local eateries and many other sales programs are putting lots of high percentage returns into the pockets of those vendors you are approving for partnerships in your fund raising drives! It's time to stop these practices and allow your players, parents, and supporters to experience a higher rate of return for their efforts and put those higher returns into your pockets/budgets!

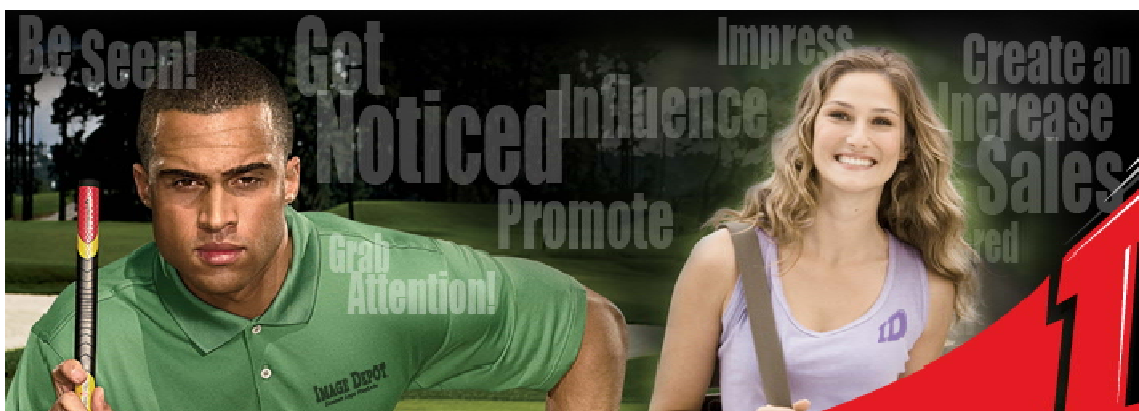

Our offer is simple.....we will offer to provide our expert sports & entertainment marketing management FREE of charge while helping your groups learn about good business practices and at the same time develop the highest percentage rate of money return for their efforts! IN SOME

CASES OVER 90%! Call us now!
